This Report is not a guarantee, valuation or appraisal. This Report contains only the characteristics of the diamond described herein after it has been graded, examined and analyzed by GIA Gem Trade Laboratory under 30X magnification, and/or has been examined using the techniques and equipment available to GIA Gem Trade Laboratory at the time of the examination and analysis. GIA does not provide, nor does it correct, triplet values and binocular microscope color comparison diamonds, standardized view environment and light sources, electronic carat beam, synthetic diamond screening device, high magnification short wave fluorescence imaging system, and wave ultraviolet transmission detection system. GIA measuring device, micro laser inscribing device, ProportionScope®, ultraviolet lamps, millimeter gages and ancillary instruments as necessary. Red symbols denote internal characteristics (inclusions). Green/black symbols denote external characteristics (blemishes). Diagram is an approximate representation of the diamond, and symbols shown indicate type, amount and approximate size of clarity characteristics. Analytical characteristics may not be shown.
